Play over 30 REAL PINBALL machines! Pinball Arcade is the most realistic and comprehensive pinball simulation ever made! This month's free table is: * Last Action Hero™ New Table added in this update: * Big Buck Hunter™ * Whoa Nellie™ * Ghostbusters™ * Mustang™ * Star Trek™ This expansive digital arcade features accurate games of the greatest pinball games of all time from Stern Pinball® and Gottlieb® together in an app. Every flipper, bumper, sound effect and screen pixel has been painstakingly emulated in astonishing detail. Ranked 9.0 on IGN! G4TV Mobile game of the year. Download for MacOS - server 1 --> Free download and install Pinball Arcade Download for PC - server 1 --> MAC: Download for MacOS - server 1 --> Free Thank you for visiting our site, have a nice day! Arcade games can easily be considered the ancestors of modern games. Alas, glory days arcades have long passed, but hints of nostalgia are still present in the fact that most of the popular titles are now featured as video games for modern consoles. Pinball Arcade is one such example, as it manages to bring back the charm of pinball in beautiful 3D graphics for you to enjoy a game that has as much eye-candy as the real thing. Anyone who has been on an arcade can describe it mostly using the words flashy or colorful, and that's exactly how you want to describe Pinball Arcade's graphics. Everything is rendered in beautiful, high-quality 3D while managing to be relatively easy on your PC's system resources, even when all the lights and particles flash and ring. This relative smoothness of the game is achieved mostly because pinball itself is a game where fast reaction times mean better scores. Play pinball with few controls. You do not need to remember complicated key combinations for this game, on the contrary. The two flippers that prevent the ball from going down are easily controlled via the arrow keys, and launching the ball is made via hold down spacebar. As the ball manages to scuttle between more and more obstacles, you eventually collect a higher score that will be saved to your profile for others to see. A modern rendition of the classic pinball game. From a game point of view doesn't bring Pinball Arcade anything new to the table, which is probably for the best, since pinball itself is beautiful and addictive precisely because it's so simple. The 3D graphics are another reason this title deserves a place in your digital library, especially if you grew up having fun at the local arcade. Each month, regular updates will add classic pinball tables for years to come! Our goal is for Pinball Arcade to become the most realistic and comprehensive pinball game ever made. Please support us in our efforts to preserve these tables and join the indelible part of Americana that is pinball! Minimum:OS: Windows 7Processor: Dual Core 2.0 ghz or better, Memory: 4 GB RAMGraphics: nVidia GeForce GTX 560 or higher, ATI HD 6950 Newer, DirectX: Version 11Storage: 11 GB available spaceSound Card: Direct Sound compatible card. Pinballs have been very popular arcade games for decades and have always managed to gather dozens of people to see the progress of the player, even since they were created more than seventy years ago. Pinball Arcade is yet another proof that this game continues to be rage. The best pinball tables in your living roomPinball Arcade don't plan to offer you anything new. In fact, quite the opposite, it wants to faithfully recreate the most famous pinball tables in history. Even the smallest design details, sound and behavior of the tables are copied from the original models. Therefore, if you want to relive how you felt controlling the flippers off the table as you spent hours at the end of your local bar or arcade saloon, this is the game you were looking for. FeaturesSS Most forty copies of the most popular tables. Detailed recreation of behavior, sound and design of the tables. Manufacturer licenses. Includes the history of each design. The story behind an endless gameVery common in leisure spots, pinball has been the rage for many generations and has even played the lead role in the 1969 rock opera of The Who. And although our leisure trends have changed quite a bit in the last forty or fifty years, this game has adapted to the technological changes, appearing on video consoles and computers ever since the beginning of video games. There's no need to say that The Pinball Arcade will never be exactly the same as standing in front of one of these machines, but it's the best way to have the best tables in history on your reach. goods, content and services distributed through Steam. Your personal data will be used in accordance with this Privacy Policy and only to the extent necessary to perform customer service. 5.3 In accordance with Internet standards, we may also share certain information (including your IP address and the identification of Steam content you wish to access) with our third-party network providers that provide network services for content delivery and game server services in connection with Steam. Our content delivery network providers enable the delivery of digital content you have requested, such as when you use Steam, by using a system of distributed servers that deliver the content to you, based on your geographic location. 5.4 Our Google Analytics Website uses Google Analytics, a web analytics service provided by Google, Inc. (Google). Google Analytics cookies to help website operators analyze how visitors use the website. The information generated by the cookie cookie visitors' use of the website will usually be transferred to and stored by Google on servers in the United States. On this website, IP anonymization has been enabled. The IP addresses of users visiting Steam will be shortened. Only in exceptional cases is a full IP address transferred to a Google server in the United States and shortened there. On behalf of the website operator, Google will use this information for the purpose of evaluating the site for its users, to compile reports of website activity, and to provide other services related to website activity and internet use for website operators. Google does not associate the IP address transmitted in connection with Google Analytics with other data that Google has. You can refuse the use of cookies by choosing the correct settings in your browser. However, please note that in this case you may not be able to use full functionality on this site. You can learn more about how Google Analytics collects and uses data www.google.com/policies/privacy/partners. Furthermore, you can prevent Google's collection and processing of data about your use of the website by downloading and installing the browser plugin via the following link: . 5.5 We make certain data related to your Steam Account available to other players and our partners through the Steamworks API. This information can be accessed by anyone by asking on your Steam ID. At a minimum, the public persona name you've chosen to represent you on Steam and your avatar image is available in this way, as well as whether you've been prohibited from cheating in a multiplayer game. The availability of additional information about you can be controlled via the Steam Community User Profile page; data publicly available on your profile page can be accessed automatically through the Steamworks API. In addition to publicly available information, game developers and publishers have access to certain information from the Steamworks API directly related to the users of the games they operate. This information includes, at a minimum, your ownership of that game. Depending on which Steamworks services are implemented in the game, it may also include information on the leaderboard, your in-game progress, achievements, multiplayer game match information, in-game items, and other information needed to serve the game and support it. For more information about which Steamworks services a particular game has implemented, read the store page. Although we do not knowingly share personally identifiable information about you through the Steamworks API, such as your real name or email address, any information you share about yourself on your Public Steam Profile can be accessed through the Steamworks API, including information that may make you identifiable. 5.6 The Steam Community contains bulletin boards, forums and/or chat areas, where users can exchange ideas and communicate with each other. When you post a message to a whiteboard, forum, or chat site, please be aware that the information is made publicly available online; That's why you do it at your own risk. If your personal information is posted on one of our community forums against your will, you can use the reporting feature and the Steam help page to request removal. 5.7 Valve may allow you to link your Steam Account to an account offered by a third party. If you agree to link your accounts, Valve may collect and combine information you allowed Valve to receive from a third party with information about your Steam Account to the extent permitted by your consent at that time. If the link of the accounts requires the transfer of information about your person from Valve to a third party, you will be informed of it before the link takes place and you will have the opportunity to consent to the linking and transfer of your information. The third party's use of your information will be subject to the third party's privacy policy, which we encourage you to review. 5.8 Valve may release personal data in order to comply with court orders or laws and regulations that require us to provide such information. 6. Your rights and control mechanisms The data protection laws of the European Economic Area, California and other territories give their citizens certain rights in relation to their personal data. While other jurisdictions may grant fewer statutory rights, we do the tools designed to exercise such rights available to our customers worldwide. To allow you to exercise your data protection rights easily, we provide a separate section on the Steam Support Page (Privacy Dashboard). This gives you access to your personal data, allows you to correct and delete it where necessary, and to object to your use where you feel needed. To access it, log in to the Steam support page on the and select the My Account ->; Data related to your Steam account menu items. In most cases, you can access, manage or delete personal information in the privacy dashboard, but you can also contact Valve with questions or requests through the contact processes described in sections 8 and 10 below. As a resident of the EEA, you have the following rights in relation to your personal data: 6.1 Right of access. You have the right to access your personal data that we hold about you, that is, the right to require free (i) information about your personal data retained, (ii) access to and/or (iii) duplicates of the personal data retained. You can use the right to access your personal data through the Privacy Dashboard. If the request affects the rights and freedoms of others or is obviously unfounded or excessive, we reserve the right to charge a reasonable fee (taking into account the administrative costs of providing the information or or take the requested action) or refuse to act on the request. 6.2 Right to remediation. If we process your personal data, we will endeavour to ensure by taking appropriate measures that your personal data is accurate and up-to-date for the purposes for which it was collected. If your personal data is inaccurate or incomplete, you can change the information you provided through the Privacy Dashboard. 6.3. Right to erasure. You have the right to collect the deletion of personal data about you if the reason we may collect it (see section 2 above) no longer exists or if there is another legal basis for deletion. For individual items of personal data please edit them via the Privacy Dashboard or request deletion via the Steam support page. You can also request deletion of your Steam account via the Steam support page. As a result of deleting your Steam account, you lose access to Steam services, including your Steam user account, subscriptions, and game-related information related to your Steam user account, and the ability to access other services you use your Steam user account for. We allow you to restore your Steam account during a validity period of 30 (thirty) days from the moment you request deletion of your Steam account. This functionality does not allow you to lose your account by mistake, due to loss of your account credentials or due to hacking. During the suspension period, we may be able to complete financial and other activities that you may have started before you submit your Steam account deletion request. After the validity period, personal data relating to your account will be deleted in accordance with section 4. Over. In some cases, deleting your Steam account, and therefore deleting personal information, is complicated. If your account has a business relationship with Valve, for example, because of your work for a game developer, you will only be able to delete your Steam account after you transfer that role to another user or have dissolved your business relationship. In some cases, taking into account the complexity and number of requests, the period of personal data may be extended, but no longer than two more months. 6.4 Right to object. When our processing of your personal data is based on legitimate interests under Article 6(1)(f) of gdpr / § 2.c) of this Privacy Policy, you have the right to object to this processing. If you object, we will no longer process your personal data unless there are compelling and prevailing legitimate reasons for the processing as described in Article 21 of the GDPR; especially if the data is necessary for the establishment, exercise or defense of legal requirements. You also have the right to file a complaint with a supervisory authority. 6.5 Right to restriction of the processing of your personal data You have the right to obtain restriction of the processing of your under the conditions conditions article 18 of the GDPR. 6.6 Right to personal data portability You have the right to receive your personal data in a structured, common and machine-readable format and have the right to transfer this data to another data controller under the terms set forth in Article 20 of the GDPR. Valve makes your personal data available in structured HTML format via the Privacy Dashboard as described above. 6.7 Right to post-mortem control of your personal data If French data protection legislation applies to you, you have the right to establish guidelines for the retention, deletion and transfer of personal data after your death in accordance with Article 40-1 of Act No. 7. Child The minimum age to create a Steam user account is 13 years. Valve will not knowingly collect personal data from children under this age. Where some countries use a higher age of consent for the collection of personal data, Valve requires parental consent before a Steam user account can be created and personal data associated with the person collected. Valve encourages parents to instruct their children never to give out personal information when they are online. 8. Contact information You can contact Valve's Data Protection Officer at the address below. While reviewing all requests submitted by mail, please note that to combat fraud, harassment and identity theft, the only way to access, correct or delete your data is by logging in with your Steam account on and selecting the menu items ->; My Account ->; View Account Data. Valve Corporation Att. Data Protection officer P.O. Box 1688 Bellevue, WA 98009 European Representative for Data Protection Issues: Valve GmbH Att. Legal Rödingsmarkt 9 D-20459 Hamburg Germany 9. Additional information for users from the EEA, UK and Switzerland Although EU-US S Privacy Shield and The Swiss-US Privacy Shield have been void as a legal basis for data transfers to the United States, Valve and TR Technical Services Inc., the wholly owned U.S. subsidiary (collectively Valve) continues to comply with the Privacy Shield Principles with respect to any personal data transferred from the European Union, The United Kingdom and Switzerland to the United States in reliance on Privacy Shield Privacy. If there is a conflict between the terms of this Privacy Policy and the Privacy Shield Principles, the Principles shall apply. To learn more about the Privacy Shield program and to view our certification, please visit . The Federal Trade Commission has jurisdiction over Valve's compliance with the Privacy Shield Principles. According to the Principles, Valve shall remain responsible if third party agents process the personal data on our behalf in a manner consistent with the Principles, unless Valve proves that it is not responsible for the incident that gives rise to the damage. eu, British and Swiss persons with or complaints regarding our compliance with the principles should first contact Valve here. If we do not address your concern satisfactorily, please contact our US-based third-party dispute resolution provider (free) on . As explained in the Privacy Shield Documentation (certain remaining claims that are not otherwise resolved may be subject to binding arbitration. In such cases, an arbitration option will be made available to you. 10. Additional information for California CCPA users gives California residents certain privacy rights regarding the personal data we collect. We are committed to respecting these rights and complying with the CCPA. The following explains these rights and Valve's practices with respect to them. Right to know. Under CCPA, you have the right to request that we disclose to you what personal data we collect, use, disclose and sell. Right to request deletion. You also have the right to request the deletion of personal data in our possession, subject to certain exceptions. Please note that your request to delete data may affect your use of the Steam Service in some cases, and we may decline to delete information for reasons set out in this Privacy Policy or as permitted by the CCPA. Other rights. CCPA also gives California residents the right to opt out of the sale of their personal information. As described in section 5, we do not sell personal data and have not done so in the last 12 months. You also have the right to receive notice of our practices on or before the collection of your personal data. Finally, you have the right not to be discriminated against to exercise your rights under the CCPA. Exercise your rights. The primary way to access, manage, or delete your personal data is through the Privacy Dashboard, as described in section 6 of this Policy. Customers may also delete their Steam account and associated personal information as described in section 6.3 of this Privacy Policy. If you cannot access or delete data through the Privacy Dashboard, you can also contact us with a request to exercise these rights using the form found . To verify your identity, you'll need to log in with your Steam account to use the form. Finally, you can contact us with a request on questions@valvesoftware.com, but before you grant access to, or delete any, personal information, based on a request received by email, we must verify your identity using the Proof of Ownership process described on . You may appoint, in writing or through a proxy, an authorized agent to make requests on your behalf to exercise your rights under the CCPA. Before we such request from an agent, we will require the agent to provide proof that you authorized it to act on your behalf and we may need you to verify your identity directly with us. Categories, sources, purposes and recipients of the data we collect. During the previous 12 months, we have collected the categories of personal data described in section 3 of this Privacy Policy. The sources from which we collect personal data and the purposes for which we collect and process it are described in sections 2 and 3. During the preceding 12 months, we have disclosed for business purposes each of the categories of personal data with the categories of third parties as described in section 5.2. Transaction and payment data In order to make a transaction on Steam (e.g. to purchase subscriptions to content and services or to fund steam wallet), you may need to provide payment data to Valve to activate the transaction. If you pay by credit card, you must provide typical credit card information (name, address, credit card number, expiration date and security code) to Valve, which will process and transfer to the payment service provider you choose to activate the transaction and perform anti-fraud checks. Similarly, Valve will receive data from your payment service provider for the same reasons. 3.3 Other data you explicitly submit, we will collect and process personal data when you expressly provide it to us or submit it as part of your communications with others on Steam, such as in Steam Community Forums, chats or when you provide feedback or other user-generated content. This data includes: Information you publish, comment on or follow in any of our content and services; Information sent through chat; Information you provide when you request information or support from us or purchase content and services from us, including information necessary to process your orders at that payment dealer or, in the case of physical goods, shipping providers; Information you provide to us when you participate in competitions, competitions and tournaments or respond to surveys, such as your contact information. 3.4 Your use of the Steam Client and Websites We collect a variety of information through your general interaction with the websites, content and services provided by Steam. Personal data we collect may include, but is not limited to, browser and device information, data collected through automated electronic interactions and application usage data. Similarly, we will track your process across our websites and applications to verify that you are not a bot and to optimize our services. 3.5 Your use of games and other subscriptions In order to provide you with services, we must collect, store and use various information about your activity in our content and services. Content-related information includes your Steam ID, as well as what's commonly called game statistics. Game statistics mean information about the game's preferences, game progress, game time, and information about the device you're using, including the operating system you're using, device settings, unique device identifiers, and crash data. 3.6 Tracking data and We use Cookies, which are text files located on your computer, and similar technologies (e.g. pixels, ad tags and device identifiers) to help us analyze how users use our services, as well as improve the services we offer to improve marketing, analytics, or website functionality. The use of cookies is standard on the internet. Although most browsers automatically accept cookies, the decision is to accept or not yours. You can adjust your browser settings to prevent the receipt of cookies, or to notify when a cookie is sent to you. You can refuse the use of cookies by choosing the correct settings in your browser. The administration of the use of cookies for each browser is described in more detail on the following help page: . However, please note that if you do this, you may not be able to access the full functionality of our websites. When you visit any of our services, our servers log your IP address, which is a number that is automatically assigned to you when you set up an account, Valve will collect your email address and country of residence. You must also select username and password. The The of this information is required to register a Steam user account. During the setup of your account, your account is automatically assigned a number (Steam ID) that is later used to refer to your account without directly exposing personally identifiable information about you. We do not require you to provide or use your real name for the setup of a Steam user account. 3.2 Transaction and payment data In order to make a transaction on Steam (e.g. to purchase subscriptions to content and services or to fund steam wallet), you may need to provide payment data to Valve to activate the transaction. If you pay by credit card, you must provide typical credit card information (name, address, credit card number, expiration date and security code) to Valve, which will process and transfer to the payment service provider you choose to activate the transaction and perform anti-fraud checks. Similarly, Valve will receive data from your payment service provider for the same reasons. 3.3 Other data you explicitly submit, we will collect and process personal data when you expressly provide it to us or submit it as part of your communications with others on Steam, such as in Steam Community Forums, chats or when you provide feedback or other user-generated content. You can adjust your browser settings to prevent the receipt of cookies, or to notify when a cookie is sent to you. You can refuse the use of cookies by choosing the correct settings in your browser. The administration of the use of cookies for each browser is described in more detail on the following help page: . However, please note that if you do this, you may not be able to access the full functionality of our websites. When you visit any of our services, our servers log your IP address, which is a number that is automatically assigned to you when you set up an account, Valve will collect your email address and country of residence. You must also select username and password. The The of this information is required to register a Steam user account. During the setup of your account, your account is automatically assigned a number (Steam ID) that is later used to refer to your account without directly exposing personally identifiable information about you. We do not require you to provide or use your real name for the setup of a Steam user account. 3.2 Transaction and payment data In order to make a transaction on Steam (e.g. to purchase subscriptions to content and services or to fund steam wallet), you may need to provide payment data to Valve to activate the transaction. If you pay by credit card, you must provide typical credit card information (name, address, credit card number, expiration date and security code) to Valve, which will process and transfer to the payment service provider you choose to activate the transaction and perform anti-fraud checks. Similarly, Valve will receive data from your payment service provider for the same reasons. 3.3 Other data you explicitly submit, we will collect and process personal data when you expressly provide it to us or submit it as part of your communications with others on Steam, such as in Steam Community Forums, chats or when you provide feedback or other user-generated content. This data includes: Information you publish, comment on or follow in any of our content and services; Information sent through chat; Information you provide when you request information or support from us or purchase content and services from us, including information necessary to process your orders at that payment dealer or, in the case of physical goods, shipping providers; Information you provide to us when you participate in competitions, competitions and tournaments or respond to surveys, such as your contact information. 3.4 Your use of the Steam Client and Websites We collect a variety of information through your general interaction with the websites, content and services provided by Steam. Personal data we collect may include, but is not limited to, browser and device information, data collected through automated electronic interactions and application usage data. Similarly, we will track your process across our websites and applications to verify that you are not a bot and to optimize our services. 3.5 Your use of games and other subscriptions In order to provide you with services, we must collect, store and use various information about your activity in our content and services. Content-related information includes your Steam ID, as well as what's commonly called game statistics. Game statistics mean information about the game's preferences, game progress, game time, and information about the device you're using, including the operating system you're using, device settings, unique device identifiers, and crash data. 3.6 Tracking data and We use Cookies, which are text files located on your computer, and similar technologies (e.g. pixels, ad tags and device identifiers) to help us analyze how users use our services, as well as improve the services we offer to improve marketing, analytics, or website functionality. The use of cookies is standard on the internet. Although most browsers automatically accept cookies, the decision is to accept or not yours. You can adjust your browser settings to prevent the receipt of cookies, or to notify when a cookie is sent to you. You can refuse the use of cookies by choosing the correct settings in your browser. The administration of the use of cookies for each browser is described in more detail on the following help page: . However, please note that if you do this, you may not be able to access the full functionality of our websites. When you visit any of our services, our servers log your IP address, which is a number that is automatically assigned to you when you set up an account, Valve will collect your email address and country of residence.
